PROFILE SUMMARY

Motivated and detail-oriented IT enthusiast with a strong academic foundation in science and hands-on experience in web development and programming. Skilled in HTML, CSS, JavaScript, Python, and MySQL, with growing proficiency in Git and GitHub. Eager to apply strong problem-solving skills, teamwork, and a passion for technology to contribute to innovative projects while continuing to grow professionally in the IT field.

EDUCATION

Bachelor of Computer Science and Information Technology

St. Lawrence College (Affiliated to Tribhuvan University)

December 2022 – Present

TECHNICAL SKILLS

- Web Development: HTML, CSS, JavaScript
- Frameworks: Django, PHP (basic)
- Programming Languages: Python (proficient), Java, C, C++
- Database Management: MySQL
- Version Control: Git & GitHub
- Operating Systems: Linux (basic)

KEY PROJECTS

MeroChat — Real-Time Chat Application

2026

HTML, JavaScript, Django | [github.com/Gorakh121/Mero_Chat](#)

- Built a real-time chat platform supporting global and private messaging with live delivery.
- Implemented user registration, login/logout, friend requests, and online/offline presence tracking.
- Added chat history, message deletion, typing indicators, and read receipts.

Online Movie Ticket Booking System

2026

PHP, HTML, CSS, JavaScript | [github.com/Gorakh121/Movie_Ticket_Booking_System](#)

- Developed a booking system covering movie browsing, showtimes, seat selection, and ticket purchase.
- Implemented user authentication, live seat-availability tracking, booking history, and confirmation flow.
- Built an admin panel for managing movies, schedules, seats, and customer bookings.

Bank Management System

2023

Java, MySQL | [github.com/Gorakh121/Bank-Management-System](#)

- Built a Java banking application to manage customer accounts and daily transactions.
- Implemented account creation, deposits, withdrawals, balance inquiry, transfers, and transaction history.
- Added authentication and account-management controls to secure access to banking operations.
